

# Midnight sun fishing

– Fishing in the midnight sun with a professional guide is memory for life

Take the opportunity to fish with an educated fly fishing guide with roots in the sami culture and vast local knowledge of the fishing around Gällivare.

Food will be prepared from the area and inspired by the Sami kitchen. Such as smoked reindeer meat (suovas)

The guide will meet you up at Gällivare train station in the evening and take you to the fishing spot. After a short presentation the guide will go through the fishing equipment before we start to fish.

Break for dinner and coffee.

Sincerely welcome!
